# HIGH SPEED THERMAL PRINTING, WITH DURABILITY AND EASE OF USE

Ideal for busy retail environments, the affordable and durable ER-A450 has a fast two-station thermal printing system. This produces easy-to-read receipts with sales item names, cashier names and commercial messages at a brisk speed of approximately 13 lines per second.

The operator can be guided through simple programming tasks so the terminals can be programmed and modified easily and efficiently.

The ER-A450 is equipped with an RS-232C Interface to connect to a PC for effective handling of sales data. This gives highly efficient data communication management.

Five compartments for notes and eight for coins ensure your profits are safely sorted and secured.
